

Customers leverage Diligent's Premium Questionnaire solutions to enhance their evaluation and compliance needs, while embracing modern governance.

Hear what our customers have to say:

Streamline directors and officers questionnaires with Diligent D&O

"When it comes to our year end director and officer questionnaire timing, the process is simple. I'm able to roll things forward from the previous year. Makes it easier for our directors and senior officers to **submit that information in a timely manner, not waste their time.**"

"The benefits are great. It's easy to navigate, it's easy to throw in additional disclosure requirements that they need to make. Whether it's our annual ethical ... signing the code of ethics or anything like that, that we can make addendum to the D&O questionnaires. **It's easy to use, easy to update, and easy to roll forward from year to year.**"

"It takes minimal time for them and so they really love it. Once they got comfortable with it, then they're just comfortable going in there, filling it out, versus me again, emailing a PDF to them, then manually filling it out with an ink pen, and emailing it back. **It just got rid of that old school process.**"

Easily analyze board performance with Diligent Evaluations

"Having the tool to be able to do it on an iPad is a really big step forward. And then the way that Diligent analyzes it and **produces a report for the board to then discuss, is really useful and saves me a lot of time.**"

"Main benefits of the evaluation tool. Just, it's always the same answer. It's having everything in one place. **Having it easily accessible, clear and easy to understand. And being able to refer back to it if you need to.**"

Integrated solutions to power modern governance

"**There's an option for anything that might interest you.** And if this is something that's tied to you, I can almost guarantee you that one module is going to have some direct tie in to the work that you're doing and the interests that correlate directly to what your involvement is with Diligent and modern governance in the first place."

"It's just easier that way to just have one company that does everything for us. As long as you're doing a good job, I don't see why we need to have one company doing one thing, one company doing another thing. **We can just stick with Diligent and just grow** whatever tools that you guys may introduce to us that will help us in our organization."

Matt Muller,
Legal Operations Manager
and Corporate Secretary,
Farm Credit Mid-America
