

As organizations operate in a more complex business environment, they need to navigate more risk than ever before. But leaders can turn these risks into a strategic advantage with a modernized approach to governance.

With the Diligent Governance Platform, organizations can bring their most critical data into one centralized place. By leveraging powerful analytics, robotic process automation, and unparalleled industry data, the board and c-suite get relevant insights from across risk, compliance, audit and ESG teams that help them make better decisions, faster and more securely.

Boards & Entities

- Power your board with the data and intelligence they need to make better decisions. Diligent Boards provides directors with transparency into their organizations while powering productive board meetings. Directors can effectively and securely collaborate throughout the year to help advise the organization.
- Fuel better decision making by providing the right information at the right time to the right individuals. Diligent Entities ensures General Counsels and legal teams can drive value by creating a single source of truth to manage entities, subsidiaries and corporate records. With world-class organizational charting, dashboarding, API's and built-in data health checks, we ensure our legal leaders are always in a position to be more effective business leaders.

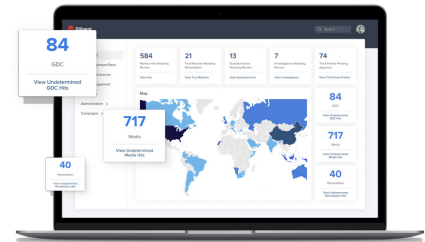

Risk

- Identify, assess and remediate risk in a single, comprehensive platform that provides visibility into your organization’s risk posture. Apply a unified methodology based in best practices, deliver alignment across the organization, and provide insights for executive decision making.

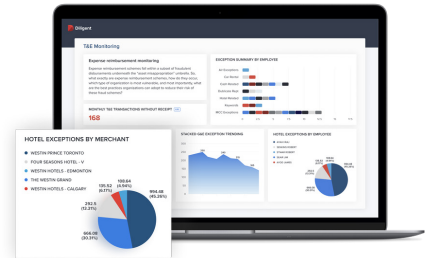

Compliance

- Embrace a culture of compliance while protecting your organization’s brand with Diligent Compliance solutions. From helping employees understand and comply with your internal policies, to seamlessly evaluating, onboarding, monitoring and managing third parties, Diligent Compliance solutions ensure your organization is acting ethically at every level.

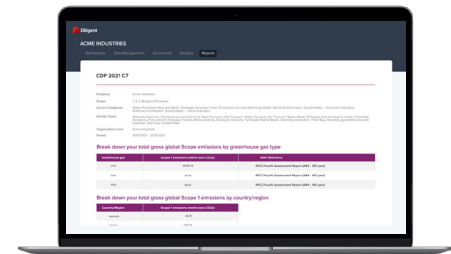

Audit

- Deliver the visibility that boards, executives and stakeholders need to make revenue-generating decisions with Diligent Audit Management. Streamline audit tasks and automate audit workflows for increased efficiency. Identify, manage and remediate risks by connecting to any data source, then track and automate key performance indicators and control processes.

ESG

- Set and surpass your environmental, social and governance goals by bringing all your ESG data into one centralized place within the Diligent Platform. Monitor and act on current and future ESG risks, calculate and report GHG emissions across Scope 1, 2 & 3, gain clarity on your third parties, and evolving regulations. Foster collaboration among ESG stakeholders across your entire organization and develop a culture of continuous improvement on your ESG goals.
