

DILIGENT ACL ANALYTICS

Next-Level Data Automation Powered by ACL Analytics

Put Diligent ACL Analytics to work and refocus on the tasks that really matter.

What's holding you back from turning your data into a competitive advantage? The challenge is often time. When you're focused on tackling time-consuming tasks like extracting and normalizing data, updating KPIs in spreadsheets, or chasing people to follow-up on exceptions — you can't also be focused on turning your data into action. That's where Diligent ACL Analytics can help.

Diligent ACL Analytics is designed exclusively for governance professionals to help make you more efficient by automating time intensive and repetitive processes. It goes beyond any simple analytic solution or BI technology. Diligent ACL Analytics runs your data access, reporting, and remediation tasks from beginning to end. It reduces the number of tools you need, provides data in real time, and frees up your time so you can focus on delivering insights that will have the greatest impact.
